- **ThermoStop™ System** – Guarantees 185°F (85°C) final rinsing temperature, regardless of incoming water temperature
- **OneGO™** – Our electronic control system featuring intelligent software LED interface and multiple function analysis. OneGO™ soft touch buttons allows you to run a selection of three different cycle times, all in one easy touch!
- **SmartSelf diagnostics** – have all necessary advanced service diagnostics information at your fingertips!
- **EasyGO** – Our ‘soft-start’ washing system protects your valuable dishes and glassware from any chipping or breakage
- **EnergyStar qualified** – extremely low water and electrical consumption maximizing your profits
- **Model 737E** is fully equipped with a built-in booster for high temperature rinse water, automatic peristaltic pumps for both liquid detergent and rinse-additive, and an automatic drain pump that has the exclusive ‘wash-down’ feature at the end of the work day for a self-cleaning operation.

**OPTIONS:**
- Pressure reducing valve (PRV)
- Drain water tempering kit
- Stainless steel stand
CONSTRUCTION FEATURES

• Body, external housing, wash tank and all chassis component in brushed stainless steel AISI 304 18 gauge
• Noise 58 DbA due to utilization of double-walled insulated panels
• Standard insulated top and side panels
• Upper and lower wash and rinse jets on revolving arms constructed of stainless steel; easy to remove and clean without the need for tools
• Integrated AISI 304 18/10 stainless steel booster with insulated lining
• Safety micro-switch on the door to interrupt wash pump action
• Reinforced door hinge system
• Independently-operated heating elements alternating between booster and wash tank
• Alternating heating resistors reducing maximum absorption thereby reducing energy costs
• Possibility of built-in or free-standing installation
• Inner washing chamber with coved corners and one-piece stamped wash tank provides user with the most sanitary environment. Our recessed wash tank makes the 737E ideally suited for marine applications.
• Wash pump protected with double scrap filters, plus additional filter for overflow tube
• Door-opening with overall clearance of 13.5 in. (342 mm)
• Automatic fill and water level regulation of tank
• Slide out integrated front control panel provides easy access for technical service
• Front mounted electronic control panel with digital temperature displays
• Standard equipment includes : One open combination rack and one peg dish rack 19.75” x 19.75” (500 mm x 500 mm)

TECHNICAL FEATURES

• Rack capacity: 19.75” x 19.75” (500 mm x 500 mm)
• Total cycle: 2-3-4 minutes
• Hourly production: 30/20/15 racks/hr. (540/360/270 dishes/hr.)
• Wash tank capacity: 3.43 U.S. Gallons (13 Litres)
• Booster capacity: 1.85 U.S. Gallons (7 Litres)
• Wash temperature: 150°F (65°C) minimum / controlled electronically
• Final rinse temperature: 185°-194°F (85°-90°C) minimum / controlled electronically
• Incoming water temperature: Minimum 122°F. (50°C.)
• Incoming water pressure: 30 p.s.i. (2 bar)
• Water consumption per cycle @ 30 psi: 0.74 U.S. Gallons (2.8 Litres)
• Washing pump power: 1.0 H.P.
• Power supply: 208V/60HZ
• Tank heating element: 2.8 KW
• Booster heating element: 4.0 KW
• Maximum power rating: 4.6 KW - 22.12 amps
• Machine weight: 165 lbs. (75 kg.)
• Ship weight: 212 lbs. (96.3 kg.)
